

North American Synchrophasor Initiative: Data and Network Management Task Team (DNMTT)

By: Matthew Rhodes

The 2nd IEEE International Conference on Smart Grid Synchronized Measurements and Analytics (SGSMA) *Virtual Event* | May 24-27, 2021

DNMTT Mission Statement

The mission of the Data & Network Management Task Team (DNMTT) is to provide guidance for synchrophasor data networking, archiving and access issues and to review new archiving and networking technologies for the best fit to synchrophasor application realization.

The 2nd IEEE International Conference on Smart Grid Synchronized Measurements and Analytics (SGSMA) Virtual Event | May 24-27, 2021

DNMTT Current Activities

- **Synchrophasor Archive and Network Strategy Task Force (SANSTF)**
 - Task Force formed for the development of the *Synchrophasor Application-Based Guide for Archive and Network Strategies (SABGANS)*
 - A guide for building or retrofitting synchrophasor archives and networks for best fit to end use applications.
- **NASPI 2020 Survey of Industry Best Practices for Archiving Synchronized Measurements**
